MAY BE A MURDER.

Cutting Scrape at Benwood Last Evening, and

THE ASSAILANT IS STILL AT LARGE.

Poses of Officers Are Scouring the Country After Him—The Deed Committed by Isaac Littleton, a Mill-Worker—Said to Have Been a Long Standing Enmity Between the Two. The Man May Die.

Last evening at 6:30 o'clock there was a cutting scrape, in Benwood, that is likely to result in murder. The scene of the probable tragedy was on the property of the Benwood steel works, in the lower part of the town, on Main street, opposite Johnny Dolan's saloon. The principals in the affair were Isaac Littleton, a worker in the Riverside steel works, and Jacob Stepper, a puddler in the lower Benwood mill. They had been drinking together during the afternoon, and, from the best accounts, had been quarrelling. Both were considerably under the influence of liquor at the time of the cutting. It seems that Littleton once whipped a brother of Stepper, and since then there has been bad blood between the two men. This was probably the original cause of their quarrel. Stepper and Littleton finally came to blows opposite Dolan's place, and Stepper was getting decidedly the best of it, when Littleton

DREW A BIG POCKET KNIFE and commenced slashing away at his opponent. The first blow was enough. It was a slash twelve inches long, starting in the left side, parting a rib in its course and entering the lung. There were three other cuts in the side but none so serious as the first. Stepper's right ear was also nearly severed, and he got a long deep cut on the left side of his head. Stepper soon fell from exhaustion, when his assailant coolly wiped the blood from his hands and knife, and then walked away without opposition from the three or four persons, who witnessed the affair. Soon after some one told Johnny Dolan that Stepper had been nearly killed outside his place. He went to him, raised him up and with assistance carried Stepper across the street to his home, after which Drs. Armbricht and McDonald, of Benwood, were summoned. They at once stated that Stepper had been very seriously injured, and that though he might recover if everything went favorably, his chances to live were pretty slim. During the evening they sewed up his wounds.

In the meantime the city officials had been notified, and Marshal Goecke, Constable Sprout and Officers Gateley and Casey started in.

PURSUIT OF LITTLETON. Up to midnight they had not discovered him. Opinions differ as to where he went. His mother lives in Moundsville, and it was thought he might go there, but though the Moundsville marshal was notified no trace of the criminal was found there. The police at Bellair and Wheeling were also notified, and were on the lookout for Littleton. The opinion seems to prevail that Littleton skipped to Ohio.

Stepper is an unmarried man, living with his mother in Benwood, and is the eldest of several sons. Littleton is a married man, about thirty-two years old and has several children, and is a son-in-law of Henry Remhof, of upper Benwood. His reputation in the community is that of a braggart and coward. Last evening a man named Jackman and a young brother of Littleton were arrested by Constable Sprout for complicity in the crime, but later they were both released after having been examined before Squire Riddle. When asked if he knew where Littleton had fled, Jackman answered that "he is somewhere between here and New York."

Late last night the wounded man was still conscious, though very weak from the great loss of blood. The two physicians in attendance decided to call in Dr. Haskins in consultation.

The people of Benwood, especially those living near the scene of the cutting, are greatly incensed, and it was freely said last night that if Littleton should be captured, a piece of good hemp and a telegraph pole were the medicine he needed.

A CARPENTER'S FALL.

He Slips off a High Roof and is Painfully Injured.

Yesterday morning Augustus McWilliams, a carpenter aged about forty-five years, met with an accident in Centre Wheeling, as a result of which he will be laid up for some time. He was working on the roof in the rear of 2135 Main street, when he slipped on the thick frost and rolled to the edge of the roof. There his foot caught in such a way as to turn him over, so that he fell feet first instead of head first, as he first started. He fell about eighteen feet, and was badly shaken up and bruised.

The city patrol wagon was summoned, and the man was removed in it to his home at No. 60 Twenty-eighth street, where his injuries were attended to. While pretty severely hurt, his wounds are not dangerous.

Fatal Accident at Cameron.

Yesterday morning at Cameron Woody Howard, a young fifteen-year-old son of Jim Howard, went hunting up Ramp hollow, taking a gun along with him, and when out at a place where he was watching for game stopped to rest on a log. He put the gun down by his side, open end up. The gun slipped off, and when falling the trigger caught and went down, discharging the contents of the load, it penetrating the boy's stomach. He only lived a short time after the accident. He was brought into Cameron and taken to his home, where the heartbroken parents received much sympathy.

A Narrow Escape.

A narrow escape from what might have been a fatal accident happened to the veteran flagman, Uncle Billy Rouse, of Martin's Ferry, yesterday afternoon at 4 o'clock, on Hanoverstreet crossing. The switch engine having passed down the track, stopped, reversed and came slowly back again, not seen by Mr. Rouse, who was standing on the track. He was struck by the step of the tender and knocked off the track, escaping with a few bruises.

HORSE CARS ADIEU.

Electricity to be Applied to North End Street Cars.

The last remaining vestige of the old horse car system in this city will disappear next week when electricity will supplant horses as a motive power for the North End street cars. As chronicled in the INTELLIGENCER, a few days ago the Wheeling Railway Company decided upon this step, and at once commenced overhauling and putting in shape the track on North Main street, that has not been in the best condition possible heretofore. Owing to the lateness of the season new rails have not been put down, except where the old ones are worn out. Next spring, however, an entirely new track will be put down, the rails for which are already on hand, and probably the proposed North End loop will then be constructed, after which that part of the city will be a part and parcel of the main system of the electric road. The arrangement now being consummated is merely temporary, for the purpose of giving North End residents a good service the coming winter. The wire for the extension has already been loaded on the line-wagon at the Forty-eighth street car barns, and it is expected that the trolley will be strung early next week, and during the week the new service will be inaugurated, with connections with the main line at Tenth street. The improvement in local transit in the North End will no doubt be appreciated.

GAS OFFICE CHANGES.

Several Promotions Made there Yesterday to Fill a Vacancy.

Yesterday at a meeting of the city gas board Jesse Shafer, the assistant secretary, resigned his position to accept the position of deputy city collector under his father, Collector W. H. Shafer. J. B. Wilkie, the former collector in the gas office, was promoted to be assistant secretary, and John Farrell was promoted to the position made vacant by Mr. Wilkie. A man now at the works will probably be given Mr. Farrell's late position, and the force at the works cut down by this one man. This will make a move upward all around, and still reduce the force and the salary list.

There are minds limpid and pure, wherein life is like a ray of light, playing in a drop of dew.—Journal.

Driven out — all impurities of the blood, no matter of what name or nature, or from what cause arising, by Dr. Fiero's Golden Medical Discovery.

Clear your skin with it. Every disfigurement, from a common blotch or eruption to the worst Scrofula, will disappear.

It invigorates the liver, cleanses, purifies, and enriches the blood as nothing else can, and promotes all the bodily functions. For all the many and varied forms of Scrofula, and for the most stubborn Skin and Scalp Disease, such as Salt-rheum, Tetter, Erysipelas, Eczema, Boils, Carbuncles, and kindred ailments, nothing can equal it as a remedy.

The sarsaparilla claim to do good in March, April, and May. The "Discovery" does more than that. At all seasons and in all cases, it's guaranteed to benefit or cure, or you have your money back.

Nothing else offered by the dealer, though it's probably better for him, can be "just as good" for you.
